

Advance-Nilfisk Part

Advance-Nilfisk Part - Imagine how tiresome it would be to tidy up your very own home after having a large party, with no help from cleaning equipment. Back in the day, the time carpets and upholstery had the dust beat out of them by hand; brooms, cleaning cloths and brushes were the leading cleaning supplies of that time.

P.A. Fisker, the man who established Nilfisk-Advance, was actually an electrical engineer who loved working with electrical motors. Founding the business in 1906, he began to make motors in order to drive drills, fans, machine tools and coffee grinders. Mr. Fisker's dream from the beginning was to have a worldwide company marketing products globally.

The Nilfisk C1 was a remarkable breakthrough for the cleaning business. This ground breaking vacuum cleaner, invented by Mr. Fisker, weighed only 17.5 kilos and could be operated by one individual. This creation came in a time where numerous cleaning machines were huge and required 4 or more operators, thus, the Nilfisk C1 changed everything and developed the way we clean forever. The mastermind behind these very first cleaning machines remains unparalleled. Cleaning equipment offer a brilliant solution to an ongoing problem; things get dirty and should be cleaned regularly, without too much effort.

Little by little, the business Nilfisk-Advance grew through the years. In the early nineteen eighties the business expanded fast when the business became a part of the NKT Group. With new owners on board, they concentrated on driving Nilfisk-Advance forward within the trade, aiming to be an active global player in making professional cleaning machines. Nilfisk-Advance is presently found in every part of the globe by gradually acquiring numerous small companies to be able to develop their product range and presence in new markets. They are proud to offer different cleaning solutions to fit each need.
