

Forklift Electrical Part

Electrical Parts for Forklifts - Lift trucks as well as different forklifts can have specific labels for use in some hazardous locations. The label indicates that this particular model of forklift meets the minimum standards of ANSI/UL 553 for electric lift trucks or ANSI/UL 558 for internal combustion engine forklifts.

Applications for marked lift trucks can be found in National Fire Protection Association NFPA 505 - Powered Industrial forklifts including: Maintenance and Operation, Type Designations, and Areas of Use. Check with your local insurance provider and Fire Marshall for further information on the permitted uses of industrial powered lift trucks in your application.

If the certain forklift satisfies the outlined standards, labels could be put. A labeled lift truck will show the type of designation placed on the nameplate and would have a correctly corresponding label attached.
