

## Rockwell Part

Rockwell Part - AxleTech International is a premier dealer in the globe of specialty vehicle drive-train systems and parts along with off highway vehicles. The company prides itself on being its customers' preferred supplier. AxleTech strives to exceed and meet their customers' expectations for service, technology, delivery and quality. They believe in working within an atmosphere which encourages the highest integrity with empowered collaboration, along with a unrelenting pursuit of results.

AxleTech International falls under the umbrella of General Dynamics. They place great emphasis on being an environmentally conscious company and offering a safe environment for their workers to work in. Additionally, they have implemented lots of programs in the company to help articulate these values in their business policy. AxleTech happily shares this policy and welcomes interested parties to provide them with whichever comments or questions, as they are happy to promote and share this policy with a greater understanding of their efforts. They are really dedicated to improving and preserving the environment. AxleTech has an EHS program which not just protects the environment but which also actively protects their staff and neighbors also.

AxleTech specializes in the designing and manufacture of planetary axles meant for both military and commercial applications, which could consist of anything from airport ground support to construction equipment. They take great pride in being a ground-breaking drive-train solutions provider too. AxleTech specifically designs axles so as to meet particular application demands. They have more than 1000 different axle specs in their current offering. With more than 100+ years of history and experience, AxleTech proudly supplies the most complete solution for any of your axle needs. The company is well known in various commercial and military applications. They offer complete axle assemblies used for aftermarket replacement needs, along with servicing axle requirements for OE production. Their high mobility ISAS have added details which could be found in the "ISAS" product selection.
